

A
The autumn comes so quickly
D
As your lying in the sand
E
Soaking up the final rays
D A
Or walking hand and hand

You can do a cartwheel
I can fly a kite
Together we'll go dancing
On this final summer night

F#m
In my little village
Bm
Nantasket by the sea
E
Summer will be pretty
D E A
Please come and visit me

the winters last forever
with no where to go
Ya dress in forty layers
Just to make it through the snow

settle down remember
the reason for it all
in six months you'll forget
the trouble of it all

chorus

spring with endless rain
wind that blows at your feet
the chill will cut though ya
when you run across the street

we can make it together
soon it will be clear
can you feel the summer
There's people everywhere

Chorus

And now it's finally summer
a buzz is in the air
drink'n with my cousin
till we finish all the beer

swimming the marina
No one had a care
until the Coast Guard skipper
kicked us out of there

F#m
In my little village
Bm
Nantasket by the sea
E
Summer is so pretty
D E A
Now that everyone's with me

A *(Conversation of spoken words)*
Here we go again
another summer
Get the sun tan lotion
Hey grab me a blanket
Ya wanna go to the beach
I love the Summer
I love Nantasket Beach
Me too
