

Am
At eleven thirty
You got down and dirty
E7
A side of you no one should ever see
west winds still blowing
so I'll be going
Am
to any other place I'd rather be

Am
You're tired of waiting
Anticipating
E7
bright city lights shine everywhere
I'm no liar
For the lack of desire
Am
Ya gotta hit a flint to spark a fire

A7
Oh oh oh
F C
If only I knew dreams of love
E Am
never come true with a girl like you

F C
I'm gonna start over Tomorrow
E Am
with someone new anyone but you

SOLO

Am
You love the night life
I need the hot sun
E7
I love to ride, you need your fun
So go to your City
Be the life of the party
Am
I'd rather walk alone than run

Am
You went to the city
cause you're so darn pretty
E7
Under the spell of its rapid pace
I love the country
I'm movin tomorrow
Am
to a high wide open space

CHORUS

E Am
anyone but you
anyone but you
