

C my patience is waning  
the constant complaining  
do me a favor  
G get on with your life

Front door knob rusted  
I'm still flat busted  
I don't have time  
C to fix your life

**F why do you pretend**  
**C to still be my best friend**  
**G there's nothing to say anymore**  
**C let's move on, on, on**

**F don't stand there above me**  
**C and suggest that you love me**  
**G We've got no feelings left**  
**C in our empty hearts**

C now that it's over  
don't look over my shoulder  
there's nothing to see  
G please go on your way

I'm living in Dallas  
with my beauty named Alice  
you called at midnight  
C to ask how I was

**F Don't ever surprise me**  
**C and never remind me**  
**G that you need someone**  
**C to fill in the void ..oid, ..oid**

**F Put down the receiver cause**  
**C Alice knows I won't leave her**  
**G I'm rolling over now**  
**C into her loving arms**
