naturally - paul mcwade Harmonica in D

Why'd you have to look so fine
 For a minute mam I thought you were gonna be mine
 Till some man came head strong at me
 So I shot him naturally

It's not easy to be so fast
 Quick to draw I'm never last
 That's why I sleep alone most nights but tonight
 I'll be gone by midnight

I'm on the run and I'm under cover
Haven't seen the light of day in a month
Cause I'm on the run and under cover
Cause a shot a man naturally

Grab my boots and take his hat
 Didn't think of much more than that
 when some young man came head strong at me
 well I shot him naturally

It's not easy to be so cold
 Quick to draw yet I'm getting old
 That's why I sleep alone most nights but tonight
 I'll be gone before midnight

I'm on the run and I'm under cover
Haven't seen the light of day in about a year
Cause I'm on the run and under cover
Cause a shot a young man naturally

Grabbed the keys and left through that door
 Couldn't think of anythin much more
 After some young boy came head strong at me
 so I shot him naturally

It's not easy to be so right
 Quick to draw and never lose a fight
 That's why I sleep alone now every night
 Can't stay no more, it just ain't right

I'm on the run and I'm under cover
Haven't seen the light for half my life
I'm on the run and under cover

Cause I shot three men naturally
