

Where are you Jodi – paul mcwade

Am      G      F      E

i knew a girl who could sing so free

but only bout her misery

she made me wait once endlessly

is she real, we will see

give her one more chance i will

do her intentions fit the bill

i know people who'd run up hill

to sing with me they'd die or kill

C      G      Am      E

where oh where are you Jodi

will you ever show up

is our meet-up still going

or will it soon break up

solo on verse
