

Oh Stormy - Classics IV

**Am7**                      **Gmaj7**      4x

**Am9**                      **Gmaj9**  
You were the      sunshine, baby  
Whenever you      smiled  
But I call              you  
**Cmaj7**  
Stormy today

**Am9**                      **Gmaj9**  
All of a sudden      that ol'  
rain's fallin'        down  
And my world is      cloudy

**Cmaj7**  
and gray

**Bm7**                      **B7**  
You've gone        away

**Em9**                      **A13**  
Oh,                      Stormy

**Em9**                      **A13**  
Oh,                      Stormy

**C6**                      **Bm7**  
Bring back that

**Em9**                      **A13**  
sunny                  day

**Am9**                      **Gmaj9**  
Yesterday's love      was like a  
warm summer        breeze  
But like the              weather  
**Cmaj7**  
you change

**Am9**                      **Gmaj9**  
Now things are        dreary, baby,  
and it's windy and      cold  
And I stand              alone in the

**Cmaj7**  
rain

**Bm7**                      **B7**  
Calling your              name

**SOLO on verse**

**Em9**                      **A13**  
Oh,                      Stormy

**Em9**                      **A13**  
Oh,                      Stormy

**C6**                      **Bm7**  
Bring back that

**Em9**                      **A13**  
sunny                  day

**Em9**                      **A13**  
**Oh,**                      **Stormy**

*repeat to fade*
