

Dm Em F Em                    Do You Believe In Magic chords - The Lovin Spoonful  
Dm Em F G

                  C                    F  
Do you believe in magic in a young girl's heart  
How the music can free her, whenever it starts  
And it's magic, if the music is groovy  
It makes you feel happy like an old-time movie

          Dm                    Em                    F                    Em  
I'll tell you about the magic, and it'll free your soul  
                  G  
But it's like trying to tell a stranger 'bout rock and roll

                  C                    F  
If you believe in magic don't bother to choose  
If it's jug band music or rhythm and blues  
Just go and listen it'll start with a smile  
It won't wipe off your face no matter how hard you try

          Dm                    Em                    F                    Em  
Your feet start tapping and you can't seem to find  
                  G  
How you got there, so just blow your mind

                  C                    F  
If you believe in magic, come along with me  
We'll dance until morning 'til there's just you and me  
And maybe, if the music is right  
I'll meet you tomorrow, sort of late at night

          Dm                    Em                    F                    Em  
And we'll go dancing, baby, then you'll see  
                  G  
How the magic's in the music and the music's in me  
                  C  
Yeah, do you believe in magic

          F                    Em  
Yeah, believe in the magic of a young girl's soul  
Believe in the magic of rock and roll  
Believe in the magic that can set you free  
Ohh, talking 'bout magic

          C            Dm                    Em            Dm  
Do you believe like I believe 5x
